

## **Letter of recommendation for TRAP s.c.**

TRAP s.c. company cooperates with our firm Allround Ship Service Sp. z o.o. from 1999 as our subcontractor in erecting new ships in Stocznia Szczecińska S.A.

TRAP s.c. company provides ship anti-corrosive and painting services covering sand blasting to Sa2 and Sa2,5 level; hand cleaning and pressure painting using hydrodynamic apparatus and brushes. The company completes anti-corrosive and painting services on the area of approximately 6 000 m<sup>2</sup> monthly in different ship compartments. Jobs are done using coating from wide range of producers like Jotun, Sigma, International Paint, Hempel and domestic paint producers (epoxy-based, oil- and chlorinated rubber paints).

TRAP s.c. company possesses own equipment as well as personal protection equipment. It partially uses our own. Depending on our needs in carried out contracts company employs approximately 30 painters.

Company is competent and has sound supervision.

Quality of executed works exposed to strict technical scrutiny were considered as “good” and “very good”.

Abovementioned opinion is handed on TRAP s.c. management request.

Szczecin, 29<sup>th</sup> August 2000
