

Naval Ship Repair Gdynia

Gdynia 02.11.2009

Letter of Recommendation

We would like to express our satisfaction for high quality services provided by Trap Sp. z o.o. with its head office in Szczecin at Chlopickiego 10/1, 71-204.

Our cooperation is lasting for 5 years, during which company has done a lot of anticorrosion works on ship constructions and lastly since June to August 2009 performed anticorrosion works on NB-192 that consist of sandblasting to SA2/SA2,5 and particularly Zinc using electric-arc metalizing on area ca 3 700 m² according to technological requirements and foreseen remarks of the Ship-owner and positive commissioning by QA for the quality of works.

Basis for relations with Trap is reliability, professionalism, which are combined with personal dedication in cooperation and care for individual client's needs. Services are provided under quality standards of Naval Ship Repair Gdynia, timely and with no reservations. That is why company has very good opinion and may be described as verified Partner in surface treatment.

From such a wide variety of similar companies with alike offer, choosing of this company was led by practical reasons: broad range of high quality equipment, but more importantly, wide understanding our needs as a client, kind and competent relations, professionalism and staff responsibility. All of this is a superb description of the company.

We can recommend services provided by Trap Sp. z o.o. with great pleasure especially for those, who seek solid Partner for cooperation. We are assured that you can rely on this company.
